CELETTE : FOCUS ON THE FUTURE

CELETTE, worldwide leader of the repair bench for vehicles has been taken over in continuation by EQUINOX GROUP, an industrial located in Geneva.

EQUINOX GROUP, already owing 3 locations in France, in various fields such as accurate engineering, stamping, prototypes and modellings for the automobile industry, aeronautical, as well as for other more specialized fields, will give CELETTE new financial means to enable the firm to achieve a new start and establish its brand image again worldwide.

CELETTE will make its relationships with the important international car manufacturers as well as with its distribution networks and industrial partnerships.

On a technological point of view, the intergroup synergies will give CELETTE the means to design and improve products and satisfy the needs of the future.

Georges BLACHE
